

# Kickstart your sustainable projects with Net Zero Financing

Sunrise Banks is committed to helping you reduce energy costs and advance sustainability through smart, strategic financing. In addition to offering Net Zero Financing solutions for projects that reduce or avoid carbon emissions, we're pleased to highlight valuable no-cost or low-cost energy audit resources available in Minnesota:

## Free Energy Audit Resources

### Energy Smart *for Businesses*

Offered by the Minnesota Chamber of Commerce, this program provides free energy efficiency consultations

to businesses served by Xcel Energy or CenterPoint Energy, as well as Chamber members.

### EnerChange *for Nonprofits*

Nonprofit organizations who are customers of Xcel Energy or CenterPoint Energy in Minnesota

are eligible for free energy audits, empowering communities and supporting sustainability efforts.

### Multi-Family Building Efficiency Program *for Multi-Family Buildings*

Multi-family building owners and managers who are customers of Xcel

Energy or CenterPoint Energy can access free energy audits to uncover efficiency improvements and cost-saving opportunities.

### Nonprofit Energy Savings Program *for Nonprofits*

Free energy audit program designed for nonprofits that serve low-income

communities and are Xcel Energy customers. Leveraging these audit programs can help you identify high-impact upgrades—such high-efficiency lighting, HVAC optimization, or low-carbon systems—that could qualify for Net Zero financing.

## How to Get Started

Schedule a free energy audit through one of the above-listed resources to identify viable energy-saving projects.

Or [contact our team](#) to explore Net Zero Financing if your project aligns with the eligibility criteria.

We'll guide you through the application process, explain potential interest rate benefits, and help integrate the audit findings into a project plan that supports long-term savings and environmental impact.
